

# Scissor Sleeve Tutorial

By Marianne Jeffrey

[adventurousquilter.blogspot.com](http://adventurousquilter.blogspot.com)

Only 2 x 10"  
squares of fabric  
needed!

Quick and  
easy to make!

## Fabric Requirements

2 x 10" squares of fabric

Example fabrics by *Harmony Art Organic Design*

Exterior: *Stumps Speak Denim*

Interior: *Vein cotton sateen*

## Pattern Drafting

1 x 10" square piece of paper or card

Image for illustrative purposes — drafting instructions overpage

Once drafted your pattern piece should look somewhat like this prototype example!

1. Imagine or draw a 10 x 10 grid on your 10" square of paper
2. Red lines are cutting lines, The paler red is only provided to show the trajectory of the lines for drafting purposes
3. Grey lines are pattern fold lines
4. Draft pattern as shown above and cut on the red lines

## Cutting Instructions

Once your pattern is drafted and cut, some minor trimming to refine the pattern may be necessary.

Fold on the grey fold lines; fold the front flap in first and the middle flap on top so you can trim away any excess overhanging paper from the middle flap. Reopen & fold the middle flap over the back flap first, then fold the front flap over the middle trim away any excess overhanging paper as needed.

Once folded it should look something like this:

Unfold once you are happy with the pattern and you are ready to cut fabric!

Place the two 10" squares of fabric right sides together, pin on the pattern piece then cut around the pattern piece this will cut **one from the exterior fabric and one from the interior fabric.**

## Construction

Place the two fabrics right sides together and pin in place.

Stitch a 1/4 seam all the way around the edges, leaving a 4 inch opening along one of the longer sides.

Clip fabric corners to ensure the excess fabric is trimmed away. This will ensure neat corners once the fabric is turned right sides out.

Turn right sides out and press carefully, pinning closed the opening as you go.

(you can choose to baste closed the opening with a basting stitch if you prefer)

Topstitch along the selected edges as shown to neatly finish these edges.

Fold in the pocket flaps, press and pin in place.

Topstitch through all layers as shown to secure the layers and neatly finish the edges.

These are fabulous for using up leftover fabrics and are a terrific gift for craft & sewing friends!

You could even use a layer cake!
